WEDDING BROCHURE

WELCOME

Hey — we're really glad you're here. Thank you for taking a moment to explore what we do. If you're looking for something warm, genuine, and beautifully you, we'd be honored to tell your story.

THE HEART AND THE FILMMAKERS

We're here to make your day feel lighter — less stress, more you. We look for the real moments: the quiet glances, the warmth in the room, the magic you don't plan but always remember. From Manila to New York to Texas, one truth has always stayed the same: the best parts of a wedding live in the in-betweens — and that's exactly where we'll be.

I'm Ephraim, a filmmaker with 10 years of experience capturing stories across cultures and cities — and beside me is my wife, Sariah, the quiet heart behind the scenes. She keeps everything in harmony — second-shooting, co-editing, and bringing balance to every story we tell.

Together, we craft films that feel effortless and honest. Warm, artful storytelling. Quiet, thoughtful filmmaking.

A legacy you'll pass down — alive for years to come.

WHY FILM FIRST

We're filmmakers before anything else. Film is where the voices live, where the vows shake, where laughter doesn't freeze — it moves, it breathes, it stays alive. That's why we don't offer photography on its own. Our heart is in motion, sound, and storytelling.

But photos matter too — so we offer them as an add-on within the same team, same timeline, same creative vision. No mixed styles. No crossed wires. Just one seamless story. And to be clear — we love working with other vendors. We collaborate easily and respectfully. This option simply exists for couples who want everything under one creative roof.
